Submitted herewith are copies of the translation of the annexes to the International Preliminary Report on Patentability, along with marked-up and clean versions of the specification.

By the foregoing, the application has been amended to conform to the specification and claims as amended during international preliminary examination, and to confirm to U.S. practice. No new matter has been introduced.

The claims as filed have been replaced with claims corresponding to those filed during international preliminary examination, with changes in format only to the extent needed to conform to U.S. practice.
